

Climate Change Adaptation for Forestry Professionals
June 8th-9th, 2015
Treetops Resort
Gaylord, Michigan

Purpose: This workshop is designed to help foresters think about climate change in a way that is practical and helpful for your work. Workshop time is dominated by hands-on planning around real-world projects, punctuated by brief presentations and discussions on climate change adaptation. We'll be using the Adaptation Workbook from the Forest Adaptation Resources document.

Who Should Participate: This workshop is targeted for professional foresters (private consultants; industrial land managers; and foresters with Conservation Districts, the DNR, and other organizations). You can participate as individuals or small teams. Interested clients and landowners are welcome to participate as well. **Participants are required to bring their own real-world project.**

Continuing Education: This workshop has been approved for **10.5 CFE Category 1 credits** through the Society of American Foresters. This event has also been approved for **4.0 SFE credits** through the Sustainable Forestry

REGISTRATION

Name	
Company	
Email	
Office Phone	
Cell Phone	

Are you planning to participate in the workshop as a small team? If yes, please list the names of folks you will be working with and have them register separately.

Do you have any dietary restrictions we should be aware of?
